CANTON NOTES.

(From Our Own Correspondent.)
EDUCATIONAL ENTERPRISE.

CANTON, June 8.

A wealthy Chinese merchant in the Malay States named Luk Yau has sent a letter to the Education Association of the Nam Hoi and Fun U Districts asking that a subscription list be sent him that he may aid the association with funds to further its good work.

TO MEET THE VICKEROY
The provincial authorities of the Liang Kiang district have sent a deputation to wait upon Viceroy Chang. They arrived yesterday and have requested that a day be set apart to discuss their affairs.

A STRANGE REQUEST.
Some time ago the gentry of the Tung-Koon district, under the leadership of one Yang Kin Lung, sent a petition praying that members of the local headmen be elected to serve as police officers instead of the men sent for that purpose by the Government. The Taoist of Constabulary has characterised the petition as nonsense and has ordered that the magistrate through whom the petition was sent be censured. He has also found out that many of the signatures on the petition are forgeries and has ordered an investigation to be made.

FORGERS' CERTIFICATES.
It is said that Major General Tsau has observed that many of the certificates and testimonials of the officers under his command are forgeries and an enquiry is to be held. Already one man has been deprived of his commission owing to his papers proving to be forgeries.

STORMS.
Since the typhoon signal has been hanging out near the Dutch Folly it has been somewhat difficult to get sampans to cross the river. Those that do venture out demand a heavier fare. For several days there have been repeated downfalls of heavy rain but no high winds have occurred. To-day the weather is much better and the river is not so swollen.

TESTING A CAPTAIN.
A certain military captain in charge of a camp near Pak Hing had the appearance of being an opium smoker. He was ordered to be tested by the Anti-opium Bureau. As he succeeded in proving himself to be a non-smoker he was restored to his command.

REMEDIATION OF SENTENCE.
The magistrate of the Shun Tak District has found out that a man named Lung Tsu-Yuen did not run away during the recent gaol disturbance and took no part in the proceedings. The other thinks such conduct should be rewarded and has asked the authorities to release the man.

"Signs are not waiting, remarked the Shanghai Mercury on July 15, that the reduction of the number of opium houses in the Settlement and the abolition of opium-smoking by the Chinese authorities outside have produced effects not altogether 'benign.' While it may be true that the general result is satisfactory, evidences have come to light showing that in some cases at least one evil has been removed only to give place to another, equally bad if not worse. This is the injection of morphia, and it is feared that since the prosecution of the anti-opium campaign the injection of morphia has been on the increase. In the Hongkong district Det-Sub Insp. Vaughan has made enquiries during the last month into the subject, and two appalling cases of victims to the 'habit' came to light. A native detective discovered the injection of morphia taking place and on examining the men found that their bodies were literally covered with scars and sores as a result of the injections.

PRIZE DISTRIBUTION AT THE ITALIAN CONVENT.

Manager's Report.

The annual prize distribution in connection with the Italian Convent school took place this afternoon. His Excellency Sir Frederick Lugard presided and amongst those present were their Excellencies General Sir Joseph Macdonald, and Mr. E. H. Chichester, with their respective suites, the Right Rev. Bishop Forster, Mr. J. J. Lewis, Consul General for Portugal and Brazil and many others.

The report of the Manager was as follows:

In submitting the report on the Italian Convent School, it is my painful duty to place on record the death, which took place on the 14th December, 1907, of Sister M. Allanson, who for thirty-eight years, without so much as a single month's intermission, taught with considerable success in the school. During all this time, Sister Allanson filled the position of headmistress in succession to Sister Bowring, the daughter of a former Governor of Hongkong, and was in turn succeeded upon her death by Sister Teresa, a capricious teacher from the Academy of Milan. It had been Sister Allanson's satisfaction to have equipped many a young lady with the moral and mental training in their earlier days, which has made them such useful members in Society, and whose daughters have later become the pupils of the same headmistress. This is probably the most eloquent testimony, if any were needed, of the approximation set upon the value of the late headmistress' teaching. On the last occasion when I had the pleasure of presenting the report, the average school attendance was 206.7. This has been increased during the year just ended to 242.58, being an increase of 17.57 per cent. The minimum average daily attendance was in the month of July last year, when it was 210.48, advancing progressively month by month until it reached the maximum in March last with 254.34. This figure remained stationary for the next three months, until we closed the year in June with 281 pupils on the roll. That the Convent is fulfilling essentially the charitable feature of the institution is shown by the fact that of the pupils attending the School no less than fifty are from the Orphanage attached to the establishment, while thirty per cent of the day scholars are admitted free of charge. There is no indiscriminate charity in such admissions, as in every case the Superiors are satisfied, after investigation, of the parents' absolute inability to provide for their children's schooling. The syllabus, approved by the Director of Education, includes all the subjects fulfilling the requirements of the Grant Code, and ranges from the infant subjects of a kindergarten class to history, geography and hygiene taught in the higher standards up to and inclusive of the seventh standard. In addition to the ordinary subjects prescribed by the Code, such extra subjects as music, drawing and painting are also taught in the school while the French and German languages as well as typewriting have been added in compliance with the demand which has arisen for such additional subjects. One hundred and ten pupils attended the music classes; twenty-five drawing and painting. Private lessons in the English language have also been given outside school hours. Without entering into details on the report of the Director of Education, whose criticisms have been directed mainly towards what he has termed the "English work" of the school, it is permissible to observe that the great majority of the children attending the Convent School are children of Portuguese and of Chinese parentage whose only opportunity of hearing and conversing in the English language is at school. The acquisition of idiomatic English by such children is, therefore, a matter of great difficulty. If they have not come up to the standard expected by the Inspector it is reasonable to hope that due allowance be made to the national character of the home environments which, in other respects, leave nothing to be desired. A rule of the school is that, at work as in play, the English language, and that alone, be the medium of instruction. That the measure of success attained by the school in the past is encouraging is testified to by the fact that some of the past pupils are engaged in teaching at private and public schools in such important centres like Hongkong, Manila, and Hankow. All the schools where former Convent pupils are now conducting classes are run under the auspices of the Government of the respective places. In the past, children of the Convent have not entered the annual public schools sports; a new departure is contemplated in this respect by the Superiors and it is hoped that our scholars will compete in friendly rivalry at Happy Valley next March. The health of the children during the year under review has been very satisfactory. When presenting the prizes in October, 1907, H. E. the Governor spoke of the great interest which he felt in the industrial section of the school in which "the orphan girls are taught a means of livelihood which may be useful to them hereafter and by which they may be able to help a little forward, and contribute towards the maintenance of the school in which they are being cared for." It is my very pleasant duty to observe, at the request of the Superiors, that the value of self-help and self-reliance, inculcated upon the children by His Excellency, has stimulated the girls to greater efforts in the desire to help the Convent.

with the product of their labour. By their needlework the girls—foreign and Chinese—without exception have been much towards the upkeep of the very large establishment with its 450 inmates and its branches throughout the Colony and its neighbourhood; making up the altogether large number of 800 dependants. Sir Frederick Lugard has very kindly offered, on behalf of Lady Lugard, a souvenir to the Convent, which will permanently remain in it, and on which the name of the most upright and self-reliant pupil will be engraved each year. Two bursaries have been submitted. His Excellency, for 1907-1908 Miss Maria Rosario, for 1908-1909 Miss Adela Llorantz.

To the donors to the prize fund our sincere obligations are tendered. Acknowledgment of contributions must be made to H. E. Sir Frederick Lugard, R.C.M.G., C.B., D.S.O., Commander, Ly-on, Sir Paul Chantre, C.M.G., the Hon. Mr. E. A. Hewitt, the Hon. Mr. Wei-Yuk, C.M.G., Chev. Z. Volpicelli, Mrs. Ho Tung, Messrs J. R. M. Smith, H. M. Mody, R. Shawan, W. Lynght, J. M. E. Machado, F. A. Gomes, E. S. Kadouria, H. Dixon, A. S. Gomes Jr., Francis Tse Yeh, Ho Fook, Ho Koon Yung, P. K. Kwok, Sin Tak Fan, Choo Leep Choo, S. D. Setts, Ho Wing, and Simon Tse Yan.

His Excellency said:—Your Excellencies, ladies and gentlemen—It is not my purpose to enlarge on the very complete report which has just been presented by the Manager on the working of this School during the past year. I have a much more pleasant duty to perform. That duty is to award to the forty-nine pupils, of its existence in this hospital Colony, never has the Convent on any similar previous occasion, been honoured by a gathering of such high distinction as we see met here this afternoon. While I should be failing in my duty, were I to omit mention of my sense of very sincere obligation to you, Sir, for presiding at this function and investing it with the dignity inseparable from your high office. To H. E. Special Commissioner, Sir, I am also very grateful for your presence and also to the large number of ladies and gentlemen who have been so kind as to grace us with your presence. I am to extend, on behalf of the Superiors, an invitation to all those who have not yet done so to inspect a small collection of needlework, drawing and painting exhibited this afternoon in one of the class rooms. The object of this little exhibition is to illustrate the work which has been referred to in the Manager's report and which merited His Excellency Sir Frederick Lugard's special commendation when he last did us the honour of distributing the prizes at this school. Before I have the honour of asking your Excellency to hand the prizes to the children who have worked for and deserved them, I beg you will permit me to call out the names of the two successful pupils who have been awarded the souvenir so kindly offered by Lady Lugard. Miss Maria Rosario and Miss Adela Llorantz will come forward and receive at your hands Her Excellency's prizes. I feel sure the teachers, the pupils and all present will feel honoured by your presence. Your Excellency's name will be for ever associated with the future of this school. It is my duty to address a few words, especially at a time when the Colony is in the midst of metamorphosis in the stage of development as regards its educational movement, on the very eve of the foundation of a new system of learning with which your Excellency's name will be for ever associated, the future of Hongkong University. It will surely be an institution that is destined to disseminate its learning in the future throughout the length and breadth of an Empire whose sons and daughters owe so much to the educational system of the Colonial Government under whose aegis the Italian Convent School largely depends for its existence.

The prize-distribution was proceeding as we went to press.

L. A. Rose and J. D. Kinnaird beat R. O. Hutchison and J. R. Wood, 3-8; beat J. D. Mackenzie and G. A. Woodcock, 6-5; beat F. A. Bidden and A. G. Pile, 6-5.

Water Polo.

LUSITANOS & ROYAL ENGINEERS.

The water polo match between the Lusitano Recreation Club and the Royal Engineers, at the V.R.C. enclosure on Monday was a very fast and exciting one. The Lusitanos proved themselves superior to the soldiers and defeated them by two goals to one. The teams were:—
Lusitanos: R. Carvalho; C.M.S. Alves and J. M. Lopes; F. L. Rosa, E. M. O. Romedios, C. A. Rodrigues and A. J. V. Ribeiro.
Engineers: McCreary, Goodery, Barton, Morrish; Coxon, Holmes and Marshall.
The Lusitano Recreation Club were the stronger swimmers but were unable to handle the ball so smartly as the Engineers and in the second half the R. E. goalkeeper was frequently called upon to defend his goal. Rosa and Rodrigues were the scorers for the Lusitanos and Marshall for the Engineers.

H.M.S. Monmouth sent a team to play water polo with the members of the Yokohama Amateur Rowing Club on July 9th and were beaten by 6 goals to nothing.

A Long Walk.

Mr Edward Payson, who left New York on March 27 and walked across the American continent, arrived in San Francisco on July 18 in good condition. The veteran accomplished the 1300 mile walk in very good time.

TOKYO LETTER.

(From Our Own Correspondent.)

Tokyo, July 10th.

According to official returns, Japan's national debts were as follows at the end of June: Domestic loans, ¥1,387,501,945; foreign, ¥1,135,700,000.

The leading Chinese traders of Kobe and Osaka have agreed to organize a guild with a view to further developing commercial business between China and Japan, and the preventing of misunderstandings which have in the past often estranged the merchants of the two countries. Most of the Chinese merchants of Yokohama have decided to support the new movement. It is said that men of substance alone will be admitted.

The project for establishing an association to supply Japanese materials and labour to China for the purposes of railway construction in the Yangtze valley is making successful progress under the auspices of the Japanese Government. The promoters held a meeting on July 8th at the official residence of Marquis Kato, the Premier, who originally persuaded them to start the enterprise. At the conference the regulations of the union were drafted. The association will be called the Mutual Profit Industrial Company (Kyori Kogyo Kaisha). The commercial papers of Tokyo, commenting on the enterprise, say that the trading and industrial relations between China and Japan are becoming more intimate and they express sincere hopes that success will crown the efforts of the new company.

It is stated in the Asahi that since the monopoly of ginseng passed out of the hands of the Mitsui Bussan Kaisha's branch in Seoul, two years ago, and was put up to open tender, the income of the Korean Government from this source has been ¥60 per cent instead of ¥25 as formerly. Most of the tenders were Chinese merchants from Shanghai. It is said that this special difference in price is due to the short crop of the last two years.

The betrothal is announced of Princess Kikuhiko to Viscount Hoshino. The Viscount is a student of the Imperial University and will graduate from that institution this year. He is a younger brother of Baroness Iwasaki.

The project of reconstructing the buildings of the Imperial Diet is reported to be under consideration. Plans have been drawn up by the officials who were sent some months ago to America and Europe to inspect various parliamentary buildings. The structures they propose to erect in Tokyo will cover an area of about 40 acres. The cost is estimated at some fifteen million yen and the construction will occupy about eight years.

The visit of Prince Tsi Chen of China to Japan proved very successful. The young prince created quite an impression in Tokyo and elsewhere where he stayed and hopes are expressed that some day he may return to Japan. At a banquet in his honour, Count Komura, Minister for Foreign Affairs, said that the connection between Japan and China was of the closest character, both political and economical. The friendly relations of the two nations should always be warm for upon them devolved the task of being the guardians of the peace of the Far East. Such a situation necessitated sincere union. The Prince duly replied, saying that it was unnecessary to emphasize the cordial relations existing between the two countries. On July 8th, his highness left Tokyo for Kobe on his way home.

Baron Takahira, Japanese ambassador in Washington, has left for home. It is said that he will be appointed to a position at home and not again be sent abroad. It is, however, said in official quarters that he has been summoned home for the purpose of consultation regarding the Treaty between the United States and Japan which is to be revised shortly. The immigration problem constitutes a permanent source of dangerous friction between the two countries and it is the urgent duty of the authorities in both Governments to settle the question as amicably as possible. In this context, it may be added, that during five months ended May 31st, the number of Japanese who left for the United States, Hawaii and Canada was 1,370, while those who returned from the three countries named were 2,749. The Yokohama says that Japan is strictly observing the promise she gave in the sequel of the last unpleasant immigration affair; therefore there is no necessity to provide a special clause in the new treaty with regard to the immigration problem.

In consequence of the Fourth of July falling on Sunday the American National Holiday was celebrated on Monday, July 5th. That day witnessed a steady downpour of rain. The usual American dinner was held at the Grand Hotel in Yokohama and was largely attended. A special dinner, followed by dancing, was also given at the Oriental Hotel. The yacht races in the afternoon were a failure, while the display of fireworks was postponed until the following evening, when, the weather being again threatening, the set pieces were left prematurely and the rest in a hurry, to avoid the rain which set in again almost immediately. This has been one of the wettest, coldest years that Japan has experienced for a long time.

TAKE A VACATION.

NOW is the time to take a vacation. Get out into the woods and mountains and risk the season, but do not forget to take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy along with you. It is almost certain to be needed, and cannot be obtained on railroad, train or steamship. It is too much of a risk to leave home on a journey without it. For sale by all chemists and druggists.

CLEVERLY CAUGHT.

Sergeant Cooper prosecuted a native at the Magistrate's court, for fighting and a fine of \$2 was imposed. A friend of his, who was employed by him being concerned in the fight, paid the fine and when in Holywood Road, after leaving the Police Court, this friend was recognized by a witness who promptly handed him over to a hokong. Mr F. A. Hasland imposed a fine of \$50 to keep the peace.

THE "CUSTOMS" FOOTLIGHTS CLUB.

Encouraged by the success achieved in their first essay, the Canton "Customs" Footlights Club gave their second performance at the Customs Club, Honan, on Saturday last, and by so doing not only added to the amusement of the very quiet and somewhat humdrum existence of that port, but decidedly added another feather to their cap. Considering the limited amount of talent at the disposal of the promoters, the success achieved speaks volumes for those chiefly responsible, and it is not too much to say that in their capable hands further successes are assured. Place aux Dames. Mrs. Roberts and Miss Reid in their two dances, especially the "Rainbow Dance" deserved the repeated encores with which they were greeted, while of the vocalists, Mr. Kallberg in his two songs, "Glow Worm" and "The Gondolier," was especially pleasing, as was also Mr. Amiel in "Sing me to Sleep" with violin and piano obligato. Of the others it is needless to say they did their best. Last but not the least interesting were the instrumental pieces, and in these the three artists, Cornet, Mr. Gregory; Violin, Mr. Sales; and Piano, Mrs. J. O. H. L. Smith—were in their element, their rendering of the music being given in perfect time and rhythm, while the applause which greeted them on each occasion showed the appreciation in which they were held. A special word of thanks is due Mrs. J. C. H. L. Smith, the accompanist, as to her careful training of the vocalists much of the success of the Entertainment is due. Below we give the programmes in full.

SELF-SUSTAINING CRUISE.

Eight armoured cruisers, accompanied by the supply ship Glacier, will leave San Francisco on September 1 for a "self-sustaining" cruise, and will reach Manila on November 1. They will leave that station on March 1 for the return cruise. The cruisers which will make the cruise are the Colorado, Maryland, California, South Dakota, Tennessee, Washington, Pennsylvania and West Virginia. The California and South Dakota are new ships and this will be their first extended cruise. The other ships have already been on this station.

During the time the ships are in these waters they will be absolutely self-sustaining, according to the information telegraphed from Washington, which means that they will not draw upon the station for supplies of any nature, but will be supplied entirely by the Glacier. That ship will leave San Francisco with a large complement of supplies, which will be augmented at Honolulu, and during the stay in this part of the world, as rapidly as her stores run low, they will be re-supplied by purchases made in the local markets instead of stocking from the supplies carried by the Navy department at Cavite. This means that local merchants will have an opportunity to furnish whatever the eight big ships will require during the four months they remain on the station.

The tonnage and armament of the fleet are as follows:

Name	place	tonnage	speed (knots)	armament
Colorado	13,680	4,000.07	22.94	18 40
Maryland	13,680	3,963.35	22.41	18 40
Pennsylvania	13,680	4,000.07	22.44	18 40
Tennessee	14,500	22.16	20 44
Washington	14,500	22.27	20 44
W. Virginia	13,680	3,963.35	22.16	18 40
S. Dakota	13,680	22.00	18 40
California	14,300	22.00	20 44

The South Dakota and Tennessee have a complement of thirty-one officers and six hundred men each and the naval authorities state that they believe the other vessels of the fleet will carry an equal number of men on the cruise, which would make a total of 228 officers and 4,800 men in the fleet.
